# Our Delicious Turkeys

## HAMBLETON FREE RANGE BRONZE

Each Christmas we make sure our customers are given the best turkeys we have to offer, the best for flavour, juiciness and firmness, that's why our own range of turkeys are grown especially for us in Norfolk by Robert Garner and family.

These turkeys are a free range bronze or a free range Norfolk Black. The bronze is denoted by its plumage, which bears an iridescent bronze-like sheen. The Garner family use only the best slow maturing birds and feed them the finest of feeds to ensure great taste and tenderness.

**THIS YEAR WE HAVE  
TWO FANTASTIC  
CHRISTMAS TURKEYS  
TO CHOOSE FROM.  
BOTH CAREFULLY  
CHOSEN FOR THEIR  
SUPERIOR TASTE  
AND PROVENANCE.

## PERFECT TURKEY OUR TIPS

Buy one of our well-reared birds to guarantee the best quality.

Remove the wish bone before cooking. It makes carving much easier.

Allow the bird to come up to room temperature before roasting.

Using a thermometer probe to test when the turkey reaches 75°C is the best way to ensure your turkey is cooked perfectly.

Rest the bird outside the oven for at least half an hour before carving.

To retain the best flavour remove all the meat from the bird at the end of the meal.

## Boneless Turkey Joints

## LOCAL ENGLISH BONELESS TURKEY JOINTS

We source all our boneless turkeys from Farm Fresh Turkeys based in Cold Newton Leicestershire just 10 miles from Oakham. Our skilled butchers can prepare these turkeys to your specific requirements. We typically cover the joint in bacon which aids its roasting and stuff them with sage and onion if requested.

## TRADITIONAL THREE BIRD ROAST

Prepared by our butchers, we create this from a free range bronze or a free range goose. We remove the rib bones then stuff the bird with either duck and pheasant breast or chicken and pheasant breast, plus our 'Head Butchers Special Stuffing'. The result is a bird that is very easy to carve, looks and tastes wonderful. For large parties we recommend serving a turkey, they are delicious and the portions will go that bit further.

# Our Other Festive Birds

## DUCK

The unique Gressingham Duck was created by breeding the Wild Mallard and the Pekin. The result is a bird that is renowned for its wonderful flavoursome meat with approximately 20% more breast meat than other ducks of the same weight. As well as a high proportion of breast meat, Gressingham Ducks are renowned for their rich game flavour, lower fat content and thin crispy skin. We can also stuff the duck with pheasant and chicken breast to produce a three bird roast.

## GOOSE

We source our free range geese direct from Botterills Farm in Croxton Kerrial near Grantham. The Botterill family have owned the farm for over 70 years and produce some of the finest geese. The flocks are quite a sight as they are herded through the local villages. We have sourced many geese over the years, but we particularly enjoy the Botterills bird.

## CAPON

Grown especially for the Christmas table these very large cockerels are a gamier tasting version of the classic chicken. Full of flavour and lots of meat on the bone these birds are sourced from farms in Norfolk.
